RICH-IGHODARO INTERNATIONAL LTD

COMPANY PROFILE

INTRODUCTION

RICH-IGHODARO INTERNATIONAL LTD is a company incorporated in Nigeria as a broad based investment concern. The need to float this company was necessitated by the desire of its Directors to optimally use their wealth of experience from different spheres of the economy towards obtaining maximum results in certain selected areas of construction commercial activities and some services such as security and consultancy.

Rich-Ighodaro Int'l Ltd now has the opportunity to offer quality services both locally and internationally. We are geared towards participating actively in the commerce industry with a focus on stimulating growth and development in all aspects of local and the international economy. Since inception, high quality output and outstanding professionalism has led to impressive growth and confidence of clients. Rich-Ighodaro Int'l Ltd has carefully built up the human and material resources necessary to offer very good services of maximum quality.

We have established adequate measures and policies to obtain our set objectives of providing prompt services through strong bi-lateral agreements with local and international organizations. Thus, we are versatile in material and technical know-how, know-what and current with state of the art services and equipments.

It is important to state that there are neither geographical limits nor restrictions with respects to our range of activities. Our experience is Global. We work with partners in Germany, Israel, Britain, the U.S.A, U.A.E and some other countries. We are therefore poised to withstand any challenges in the commerce, construction, Automobile and Logistics industry and the Oil and Gas Sector.

THE BOARD

The Board of Directors is made up of reputable Nigerians who have distinguished themselves in the construction, financial, Sales of Automobiles and the provision of Logistics Services, manufacturing and commerce sectors of the economy. And on its management payroll are seasoned and multi-disciplinary professionals who are eminently qualified to ensure top level and qualitative results to the company's clients.

ACTIVITIES IN BRIEF

OPERATIONS

The rate of challenges in operating in Oil and Gas industry in recent times informed the Board of Directors of Rich-Ighodaro Int'l Ltd. However, this was made possible by our technical arrangement with some of the leading construction and EOM companies in Europe, Israel, Turkey and Asia. We therefore carry out extensive construction works and tools supply and management for clients. We construct industrial bays and Silos storage; thus sheds community and social building, offices, schools, drilling, tank construction and water distribution.

In the power sector, our engineers are proficient in sourcing concrete feeder poles, transformers and cables etc. They are excellent in the installation of transformers and distribution of light in communities and industrial complexes.

INDUSTRIAL SUPPLIES

The company works with various manufacturers both local and international companies to meet the need of our varied customers.

We have entered into partnership and agency arrangement to enable us meet the requirements of our clients in the supplies of Automobiles, Machines, Heavy duty equipment, computers and consumables, stationary, chemicals and security gadgets.

Our major targets are the major Exploration and Production companies operating in Nigeria such as;

- Mobil Producing Nigeria Limited
- Nigeria National Petroleum Corporation (NNPC)
- Shell Nig Ltd
- Total E&P Nigeria Limited
- Brass LNG Limited

- Federal Government, States and Local Government of Nigeria
- Ministries, Parastatals, MDAs, Government Agencies and State Security Organizations
- Chevron Nigeria Limited (facility Department)
- Agip Oil Nigeria Limited
- Nigeria Petroleum Exchange (NIPEX)
- Nigeria Security Agencies
- Nigeria Content Monitoring Development Board (NCMDB)

In addition, we have an operating permit from the regulatory body, The Department of Petroleum Resources (DPR) to provide oil and gas services as a contractor

Rich-Ighodaro Int'l Ltd project management services, take projects through detailed engineering, procurement, construction supervision, inspection and testing, pre-commissioning and start-up.

In addition to undertaking all area of project management, we conduct market survey, commercial viability studies, technical evaluation, project feasibility assessment and arrangement of project financing.

We undertake corrosion monitoring/control of pipelines, offshore locations, and storage tanks using the states of the art equipment.

The company analyses the political, environmental, economic and social factors as it affects the host community and project/associated risks and design appropriate measures to mitigate contemplated risks. Our workforce comprises, managers, engineers, technicians etc who have done various engineering project directly or indirectly for oil exploration companies, services companies and industries.

In addition, we have an operating permit from the regulatory body, The Department of Petroleum Resources (DPR) and Nigeria Content Monitoring Board (NCMB) to provide oil and gas services as a contractor.

CONTACT DETAILS

HEAD OFFICE

Block C Suite 7, Plot 510,

No. 77 Nouakchoff Street,

Off Olusegun Obasanjo Way,

Zone 1 Wuse Abuja.

CONTACT PERSONS

CHAIRMAN CEO

I. Mr.Richard Ighodaro
Is the Chairman /CEO of Rich-Ighodaro Int'l Ltd.

GENERAL MANAGER OPERATIONS

II. AHMED MOHAMMED DAKAYA
Is the general Manager Operations, he hold HND,PGD and Masters in Marketing from Kaduna Polytechnic and Ahmadu Bello Universty Zaria Respectively.

MANAGER SALES

III. EDOS IGHODARO
Is the manager Sales to Rich-Ighodaro Int'l Ltd.

PROJECT MANAGER

IV. NUHU MOHAMMED DAKAYA

Handles all the project executions for the company, he also graduated from Kaduna Polytechnic.

SECRETARY

V. EUNICE OMORAGBON OSARIEMEN

She is the Relationship manager to the company, she holds Bsc. in Microbiology from University of Benin.

VI. Marketing Manager to the company
AUGUSTINE B. OMORUYI

VII. The Company Secretary
ORGAH JOSEPHINE EHI

VIII. Company Engineer
Mr. ISAAC UDIONYANG

VISION

Our vision is to be the most reputable and profitable Servicing Company in the world.

MISSION STATEMENT

To our;

- Employees: Provide the opportunity to learn, grow and enjoy the value created by their effort
- Customers: Provide leading edge solutions, act with urgency/integrity and most of all develop long-term relationships by delivering memorable results.
- Stakeholders: Create value by achieving returns that meet or exceed their expectations

STRATEGIC BUSINESS ACTIVITIES

RICH-IGHODARO INTERNATIONAL LTD has entered into Partnership with VALUE SMART TECH CO. LTD in China to be their sole and official distributor in Nigeria Market.

With this partnership strategy we offered a full range of services such as; Installation and Training of interactive flat panel, R&D, Interactive whiteboard, digital signage, video wall, PTZ camera, speaker phone, conference software and other products using in education, house of worship, hospitality, government and enterprise businesses.

With ValueStek we adheres to the idea of creating ”Value” with Technology strikes deep roots in intelligent display technology, keeps innovating from technology, products and services and willing to work with our partners from all over the world to create value, contribute value and share value with Customers, Staff and Society.

Rich-Ighodaro International Ltd’ business activities are;

- Detailed engineering services
- Automobile Supply and Logistics Services
- Corrosion control/monitoring
- Geo services
- Electrical & Instrumentation
- Civil Engineering and Construction works
- Safety and security equipment
- Interactive Display Panel
- CCTV Cameras

Our goal is to maximize value for our customers and help them manage their long-term energy needs. We work with a network of companies across the energy value chain with the primary focus on how we can best build long term value that will in turn translate to robust opportunities for all.

Rich-Ighodaro Int’l Ltd is well positioned to rapidly respond to the all the needs of our clients. We have at our disposal the technology to deliver prompt and efficient services within our regions of operation backed by the expertise of our technical partners. We operate a project based organization structure whereby every project is managed by its own team.

OILFIELD EQUIPMENT AND SUPPLY CHAIN MANAGEMENT

Rich-Ighodaro Int'l Ltd regularly taps into the enormous resources and goodwill of our subsidiary company Westfield Energy Resources LLC and this synergy, has resulted to our ability to supply innovative and time-tested oilfield products required for the entire crude oil production cycle and also distributes oil tools and chemicals necessary for refining, petrochemical and power industry.

We are tapping from our partner's inventory and so can provide comprehensive material, planning and supply chain management services to enable customers respond efficiently to the demanding needs of major projects.

We are working on signing agreement reseller/distributorship arrangements with major US and European corporations and manufacturers principal among whom are;

- Redman Pipe and Supply Company
- Wholesale Electric Supply Company
- ENSIVAL MORET France
- Worldwide Oilfield Machine, Inc
- M & I Electrical Industries, Inc
- Versa Products Company, Inc
- Cla-Val Automation
- Draka USA
- Advance Valves Pte- India
- Fluid Components Intl
- Sidewinder Pumps Inc
- Olympus
- Tyco Flow Control
- Parsons Overseas Limited
- A C S Technology

We offer expertise in the supply of the under listed products to the major E&P Companies in Nigeria sourced mainly from the above listed OEM's and the open market:

- PVF- pipe, Valve and fittings
- Pumps and compressors
- Electrical Materials and Fittings including cables
- Instrumentation and flow control products
- Drilling and well testing equipment- Flowheads, Choke and Kill Manifolds, Blowout Preventers, etc
- Pumps & Compressors- Accessories, rotary & turbine compressors, centrifugal pumps, vibration equipment, progress cavity pumps, packings, seals and gaskets
- Valves & Actuators- wellhead valves, downhole valves, cementing valves, pneumatic, electric, mechanical and hydraulic valves
- Safety & Environment- Nomex IIIA coveralls, life jackets, fire protection products & systems, boots, gloves.
- Geophysical survey services
- Working Talking, Bullion Van, Armore Tanks And other War Equipments.
- Solar Panel Supply and installations.
- Supplying of Security Hardwares.

Materials we procure from around the world are shipped to Nigeria by our appointed freight forwarders- SDV USA and Murphy Shipping & Commercial Services, Inc.

To better meet the delivery needs of major Drilling and Well Services companies in Nigeria- Transocean, Geoservices, Parker Drilling, Ensco, Pride International, etc. Rich- Ighodaro Int'l Ltd has entered into a consigned inventory agreement with World Wide Security Production Company and Oil Field Machine, Inc. under the terms of this agreement.

In all, our objective is to assist customers in reducing total procurement costs and ensure timely delivery.

MANPOWER, OILFIELD AND ENGINEERING SERVICES:

We are in tune with the policies and ambitions of the Nigerian Government, NNPC and its Joint Venture Partners towards the attainment of indigenous involvement in Oil & Gas industry in Nigeria and as a result, we are in the process of setting up a full-fledged engineering and consulting firm in Nigeria. When fully integrated, our objective is to carry out all Front End Engineering Design and Detailed work in Nigeria thereby utilizing our local engineers.

Through our partnership with 2 major manpower and personnel services companies- Atlantic Gulf and Pacific of manila Inc and International Manpower Resources PL of India, we are able to handle placing of Engineering Manpower from India and Philippines to project in Nigeria.

OFFSHORE MARINE SERVICES:

Rich-Ighodaro Int'l Ltd offers fleet of offshore support and specialized vessels to meet your specific needs. We can provide a comprehensive package to meet your requirements in any of the following;

- Crew/Utility Vessels
- Tug Boats
- Barges
- Platform Supply Vessel
- Anchor Handling Tug Supply Vessel (AHTS)

We have the resources to meet the full scope of your offshore energy support requirements, backed with our personal attention to ensure the successful execution of your projects.

Rich-Ighodaro Int'l Ltd also offers services in the following areas:

Production and Processing Operations:- Well Head operations and maintenance services, pressure vessels and product containment cleaning, pressure testing, valves and other production and processing instrument inspection, calibration and repair or installation etc.

Construction and Maintenance Services:- Piping design, construction and repairs, mechanical steel structural design and construction, corrosion control (Cathodic protection and protective coating), civil design and construction, instrumentation and electrical design and construction work, rotation equipment, compressor and centrifugal pumps installation and repairs, design and construction of safety training. Facilities, thermal insulation/control of processing systems etc.

NDT inspection services:- Magnetic particle inspection, Liquid penetrant inspection, Ultrasonic testing, Eddy current testing, Visual thread inspection, Lifting inspection (load test) are the services we render under this category

Geo Services:- Ground penetrant Radar Surveys, Seismic Surveys, Final Building Inspection, Electrical Surveys, Seismic Tomography, Cross hole, Resistivity Images, Tomography and Hydrographic Surveys etc.

FUNDAMENTAL OUTLOOK

Company Objective and Policy:- Rich-Ighodaro Int'l Ltd objective is to apply her full engineering and construction capability that seek to achieve high integrity services in various areas in Nigeria and beyond, thus contributing towards the economic and social growth of our operations areas (especially local communities) through the effective use of our project management skill, technology exchange and community development plan. Our policy is therefore to render high quality technical services that meet the needs of our clients especially in the oil and gas production, processing and Supplying operations/activities.

Company Identity (by Scope of Services)

RICH-IGHODARO INTERNATIONAL LTD is a full discipline Company, in the petroleum and environmental industries with expertise covering the following engineering process, operation and construction services.

- Business evaluation
- Concept Analysis
- Basic engineering design
- 2 D and 3 Dimensional detailed design
- Procurement (local and foreign)
- Project management
- Construction work, supervision and inspection (civil mechanical/steel structures, instrumentation and Electrical)
- Piping Network
- Fabrication and maintenance of storage tanks and vessels
- Equipment and manpower support for onshore tanks and vessels
- Rotary equipment procurement, Installation and maintenance
- Pipe fitting and valves procurement and installation
- Protective coating and Cathodic protection
- Modification and fabrication of offshore decks
- Corrosion control/monitoring
- NDT inspection Services
- Security and Safety Gargets and machines
- Nigeria Content Equipment Certificate (NCEC)

In order to meet various standards in the all-important industry setting, we develop enhanced expertise through engineering alliance with reputable firms in relevant discipline.

RICH-IGHODARO INTERNATIONAL LTD also continues to expand her process technology base by reaching out for innovative and cost effective standardized technologies. Specifically in the areas of the scope of services listed below (in details)

- **Project Engineering and Management**:- Planning and scheduling of projects from start up through commissioning. Our specialized team of experts handles all aspects of project and contract management from budgeting and cost control to purchasing and construction supervision

- **Corrosion control and Cathodic protection**:- This is provided as either a complete site survey, system design, preparation of specifications and drawing, procurement and suppliers, installation and maintenance
- **Mechanical and Structural Fabrication and installation** involving welding of steel materials, especially for steel frame structures
- **Design and Construction work in Civil Engineering discipline** as it relates to buildings, roads/bridges drainage and culvert system, using pre-cast and heavy duty concrete pavement system.
- **Procurement, Supply and Installation of equipment**, tools and process (treatment) materials e.g. Waste water/sewage chlorination system.
- **Storage tank and Pressure vessel construction and testing**
  Marine Services ranging from provision of work boat/vessels for offshore project
- **Carbon steel materials protective coating**, wet and dry abrasive blast cleaning and coating to steel structures painting council – SSPC surface preparation – SP and paint application – AP standards. Services under this also include materials, equipment and manpower support (particularly control), onshore and offshore projects.
- **Construction Material testing**, from foundation to final roof top inspection, and can control project cost by testing material before installation
- **Electrical and Instrumentation**:- Industrial writing, general electrical troubleshooting and repairs, gas and diesel engine driven electrical generator sets, low and high voltage motors, lighting equipment, Installation of circuit breakers, switch gears/change over, synchronizers etc. pneumatic control system etc
- **Supplying of Automobiles**:- Supplies the Automobiles such as Cars, Trucks, Hilux, Jeeps, Vans, and heavy duty equipments etc.
- **Security and Safety Equipment**: As Agent and Distributor of quality and superior Security gargets from Europe, we supply Security Hardwares, Working Talking Gargets, Bullion Van, Armore Tanks, Vans etc.
- **Provision of Logistics Services**:- the company also undertakes the supplies and provisions of logistics in movements of goods and Material services such as haulage, Trucking, vessels, Tug boat etc.
- **Corrosion Protective Coating**:- Grit blasting and application of protective coating to steel works:
    - Piping and accessories
    - Storage tanks and vessels- steel structures
    - Towers and Derricks
    - Offshore platform deck (include Helideck)

Civil Structural Works:- Building, reinforce concrete foundations, jetties, warehouse, earth movement work and roads, standing/Drains, Bridges/walkways, pavements, high security industrial perimeter fancying equipment foundations etc.

- **Thermal Insulation**:- Hot and cold thermal insulation system (Calcium silicate, mineral/rock/wool) and polyurethane/ foam glass heat insulation materials
- **Non Destructive Testing Quality control**:- non-destructive test/Inspection (magnetic particle inspection – MPI, Dye penetrate Inspection – DPI, Radiography – X ray, Ultra sonic – UT)

Technical Agency and Partnership:- Rich-Ighodaro Int'l Ltd has a long standing foreign agency/representative in the following companies

- Redman Pipe and Supply Company
- Wholesale Electric Supply Company
- ENSIVAL MORET France
- Worldwide Oilfield Machine, Inc
- M&I Electric Industries, Inc
- Sea Engineering of USA
- Versa Products Company, Inc
- Cla-Val Automation
- Draka USA
- Advance Valves Pte- India
- Parson Overseas Ltd- India (Geophysical Services)
- A C S Technology Turkey
- Valuestek Technology China

TROOPER PROFESSIONAL EQUIPMENT
CHEVEYO AG SWITZERLAND

Which co-ordinates all our foreign procurement and Technical partnership services, ranging from personnel to equipment and even foreign currency oriented project financing. The services rendered by these companies to RICH-IGHODARO INTERNATIONAL LTD in this regards spreads across major industrialized nations in the America, Europe, Asia and the Middle East.

This foreign partnership deals have tremendously aided our performance in the execution of projects that are critical to crude production and processing operations in all the oil majors we service either as suppliers or project executors' vendors

- **Company Target Clients**:- We provide solution to a spectrum of the energy industry and environment sector. We specifically target areas in the Federal Government States and Government Agencies and oil industry where expertise are most needed in the small, medium, and large project and markets which major multinational engineering contractors (out of negligence/lack of local content) cannot handle cost effectively.

1. **Company Special Attributes**: Rich-Ighodaro Int'l Ltd is unique in rendering services to clients Considering our operational purpose, vision and focus. This can be summarized thus- our main concern is to understand our client's business and add value to their operations.

Hence our clients short term and long term objective, financial criteria, definite quality, time constraints, added value and high productivity orientation. This is as a result of advanced management philosophies and standardization and the highly effective use of current technology

We attain peculiar status among our other competitor owing to business cultures listed as follows;

- Focus on client relationship
- Focus on standard systems
- Focus on innovative technology
- Focus in entrepreneurial spirit
- Total quality management and continuous improvement
- Vendor independent solutions
- Simplifying the complex for the most cost-effective total solution
- Health, Safety and Environment (HSE).
